

LEADERS ARE TO KNIFE MESSAGE

Republican Members Have Too Much at Stake to Approve All President's Policies.

TO SLASH RATE REGULATION

G. O. P. Members of Congress Are Also Opposed to Revision of Tariff.

(From Our Regular Correspondent.)
WASHINGTON, D. C., November 22.—Few Presidents have had opportunity to prepare more important or more interesting State documents than the message which President Roosevelt will send to Congress on Monday, the 4th of next month. The President probably knows what the message will contain, though hardly, for Theodore Roosevelt does not know his mind long in advance of expressing it, whether expression be made in an address or with a pen. But nobody else pretends to know what the message will contain.

The President, following his custom, has been at work on the message almost ever since the last Congress expired on the 4th of March. He is in the habit of jotting down in his own hand, frequently notes of subjects with callers at the White House, which he thinks may be mentioned in his message. These are taken in hand by Secretary Loeb, who has them typewritten and filed away for reference when the actual work of preparing the message commences. Occasionally, after a caller has gone away, the President has Mr. Loeb, or some other stenographer, come into his office and take several sentences of dictation concerning the matter under discussion, and this is filed to be referred to when work on the message is in progress.

While nobody can know this early in advance exactly what the President will discuss in his message nor the method of treatment of the most important subjects, it is comparatively easy to foresee several important matters to which much space will be devoted. It is believed that the subject of regulation of freight rates by the government will receive the most careful and, with the exception of tariff revision, the most extended treatment of the subjects which the message will discuss. President Roosevelt has made not the slightest concession to the opponents of rate regulation, it is said by those who are supposed to know best the mind of the Executive. It is said that he will urge, in language much stronger than that which he used in his last message, that legislation be enacted empowering a government commission to regulate the railway charges, and that he may give considerable space to private car lines, which were not alluded to in his last message.

The subject of tariff reduction will receive extended notice, and it is believed the Executive will recommend that there be made some radical reduction in the rates fixed by the Dingley law. It is hard to tell which is going to create greater opposition in the ranks of the Republican party, the proposition to regulate railway rates by means of a governmental commission or that which will look to the reduction of tariff schedules. It is a fact, however, that neither the representatives of the railroads nor the men who represent the protected interests of the country, appear to be uneasy regarding the outcome of the fight. They appear confident of their ability to defeat the President on both issues, and, of course, they will unite their forces.

The President will devote much of the space used in the message to discussion of the Panama canal enterprise. He will recommend a bond issue to defray the cost of construction, and will probably call attention to the increase in cost over the first estimates, because of having laid a sea-level instead of a lock canal.

The insurance scandals will also take up much space in the message, and the recommendations which the President will make concerning the regulation of insurance companies are being awaited with probably as great interest as the document is expected to contain.

The message has been put in type. The President has the proofs, and is devoting a considerable portion of each day to its consideration and revision. The emendations and additions always change in the most vital way the first drafts of the manuscript work of the President.

It would appear that the President is to be beaten on both rate regulation and tariff revision. There is no sort of doubt that a majority of the Republicans of the Senate and the House of Representatives are opposed to any revision of the tariff, and it is believed that they will occupy the same position on any bill which may meet his views concerning the regulation of railway rates. They voted for the Each-Townsend bill last year for the reason that it did not regulate. It did not hurt the railroads, though the people who are most bitterly opposed to corporations, especially railroad corporations, thought it would scarcely stop short of tearing up the tracks and burning the rolling stock. But should there come up this session a bill framed in accordance with the views of the President, one which would really give to the commission the power to compel the charging of certain rates, it is safe to count upon almost solid Republican opposition. Senator Ellkins, chairman of the Senate Committee on Interstate Commerce, who has asserted with vehemence along with all the tariff revision legislation, went to see the President a day or two ago, and came away with the impression that Mr. Roosevelt should be such a strong partisan on the subject of regulation of rates by law. There is no doubt that the President knows where

COLDS CURED IN ONE DAY

Myer's Cold Cure Relieves Cough, Croup, Sore Throat, and Lung Inflammation. Stops Discharges of the Nose. Takes Away All Aches and Pains Caused by Colds. It cures Grip and obstinate Coughs and prevents Pneumonia. Sold by all druggists.

Merit.

That's the keynote of Burk Inexpensive Clothing. Every garment on sale is measured to and must come up to the high quality that has ruled here from the start, never has been and never will be lowered under any consideration. Quality for quality, price for price and it is absolutely impossible to equal this thoroughly dependable apparel anywhere, and that this is no empty claim, let comparison illustrate.

Burk Inexpensive Suits, Overcoats and Rain Coats at

\$10, \$12.50, \$15.

BURK & CO.,

1003 East Main Street.

to put Senator Ellkins in the fight which is to come up on this subject. The fortune of the West Virginia senator is largely invested in railway lines. Both of the last two assertions might be made with equal appropriateness concerning many other Republican members of the Senate.

ANNUAL MEETING.

Auxiliary of Masonic Home Hears Reports.

A large and enthusiastic meeting of the Masonic Home Auxiliary was held at the home on yesterday, that being the sixteenth anniversary of the organization. After partaking of a bountiful lunch, to which the governors of the institution were invited, the report of the year's work was read with much interest.

This has been one of the auxiliary's most successful years, its receipts for the home aggregating over a thousand dollars, and thirty-two new members having been welcomed. This number would have been more than doubled except for the restricting clause in the constitution and by-laws, which limits the membership to only the mothers, sisters, wives and daughters of Masons.

Cordial thanks were tendered the board of governors, the officials at the Temple, and Ruth Chapter, Order of the Eastern Star, for courtesies and substantial assistance.

Mrs. William S. Murray declined re-election as president. Her brother having died recently, she felt that she could not participate in the activities so essential for the administration of the high office.

Mrs. Sol L. Bloomberg was then elected president, with the following active vice-presidents: Mr. M. E. Snellings, Temple Lodge, No. 9; Mrs. O. E. Parrish, Richmond Lodge, No. 10; Mrs. W. B. Murray, Metropolitan Lodge, No. 11; Mrs. A. J. Fitzgerald, Manchester Lodge, No. 14; Mrs. H. N. New, Richmond Randolph Lodge, No. 19; Mrs. Cass Johnson, St. John's Lodge, No. 26; Mrs. L. T. Christian, Joppa Lodge, No. 40; Mrs. N. L. Newberry, Dove Lodge, No. 51; Mrs. L. Bloomberg, Fraternal Lodge, No. 53; Mrs. C. E. Filippin, Amity Lodge, No. 75; Mrs. J. S. Moore, Henric Union Lodge, No. 150; Mrs. F. Mayer, Lodge of Strict Observance, No. 207; Mrs. Rosa Grot, Meridian Lodge, No. 24; and Mrs. A. Arsell, honorary vice-president.

Mrs. B. D. Brooks, corresponding secretary, and Mrs. J. T. Hughes, recording secretary, each declining re-election; Mrs. W. A. Cheatwood was elected corresponding secretary and Mrs. C. J. Billups was elected recording secretary; Mrs. E. W. Carter was re-elected treasurer.

The ladies then closed the celebration with a delightful feast for the orphans.

Rehearsal of Full Caste.

A rehearsal of the full cast of "The Crystal Ship" was held last night at the Richmond. The city's society was represented by most beautiful and graceful members of the younger set, and the hall-room was well filled with attractive matrons, who were there as spectators.

The story of the play, which is an extravaganza, gives opportunity for the most brilliant costuming and effects, an opportunity which has been made the most of by Professor Agnew. There are four acts, two on earth and two in fairyland, while the chief characters have names which in themselves are unusual enough to promise wonderfully fascinating scenes.

Catchy music is interspersed throughout the whole play.

There are about five hundred people in the cast, making a most representative body from the smart set of Richmond.

AMMONIA SUFFOCATES EIGHT NEGRO WORKMEN

Two Dead, Two Fatally Overcome and Four Will Probably Recover From Accident.

(By Associated Press.)
HOUSTON, TEXAS, November 22.—Eight negro workmen were caught in the cellar of the Houston Packing Company during a gas leak, and ammonia gas suffocated them. The accident occurred at 5:30 p. m. yesterday. The men were working on a pipe which had broken, and all of them were overcome by the fumes. It was necessary to dig through the wall to get them out. It took some time. Steve Johnson was dead when taken out; F. W. Allen succumbed shortly after, and to-night physicians have practically given up hope for the recovery of Sam Godley and Jones Blakey. The other four men will probably recover. They are Owen Hill, James Cleveland, Henry McCutcher and C. T. Trevis.

The accident was caused by a leaky pipe, and the responsibility has not been placed.

DRY GOODS KING'S SON IS FATALLY SHOT

Young Marshall Field Accidentally Discharges Gun While Preparing for Hunting Trip.

(By Associated Press.)
CHICAGO, November 22.—While cleaning a gun to-day, preparing for a hunting expedition, Marshall Field, Jr., son of Marshall Field, the well known dry goods merchant of this city, was accidentally shot himself. He was taken to a hospital and will undoubtedly die before morning.

VIRGINIA SOON TO SWELL SOCIETY

Congressional Delegation Secures Quarters for Approaching Season at Capital.

WILL MISS MRS. SWANSON

Governor-Elect Will Spend Two Months in Washington Before Term Ends.

(From Our Regular Correspondent.)
WASHINGTON, D. C., Nov. 22.—The Virginia delegation in Congress will soon be in Washington for the impending session. Senator Martin is already here with his family, and Representative Jones and Representative Rixey and their families have been here for some time. Representative Swanson and Mrs. Swanson are arranging to come to Washington soon, but have not yet succeeded in finding apartments. As Mr. Swanson will not take the oath of office as Governor of the Commonwealth until the first of February, he will have to be in Washington two months before his final term as a representative in Congress ends. Mrs. Swanson has a prominent place in the social world of Washington, and her retirement from it is being regretted very generally.

Representative Hay and Mrs. Hay will probably reside in their P Street home, as usual, though they have sometimes boarded.

Representative Lamb will live at the National Hotel, where he has been a fixture for many years.

Representative Glass will probably live in a hotel, though he has not selected his hostelry as yet. Mrs. Glass does not often come to Washington, preferring, and very properly, her friends say, to remain in Lynchburg where her husband discharges his official duties.

Representative Southall will have bachelor apartments somewhere, possibly at the New Willard. That hotel was a favorite lounging-place for Mr. Southall last season when not at the Capitol, and he will probably make it his home this winter.

Representative Slemm and Mrs. Slemm will probably live at the Elkhart House, where they stayed last winter. Mrs. Slemm does not spend much of her time in Washington, choosing to stay in Big Spring Gap, where they have a pretty home.

Representative Maynard will probably not be able to get rooms again this year at the Rookhambeau, where he lived last winter. It was stated at that apartment house, where he stayed, that the rooms were engaged. Mrs. Maynard, who comes to Washington during the session.

Representative Flood will probably live at the New Willard again this year. He resided there last year for the greater part of the session and seemed to like the quarters very much.

Representative Jones owns his beautiful home in Q Street, and seems almost as fond of it as any of the two he has in Richmond county. His children go to school in Washington and he and Mrs. Jones generally come to the city early in the fall in order to enable the young people to begin with their classes as early in the session as possible.

Representative Rixey and Mrs. Rixey also send their children to the Washington schools, and come to the city earlier than most of the congressional people on that account. They are living this year in a home off Farragut Square in one of the most attractive residential neighborhoods in the city.

Senator Martin and Mrs. Martin are living at No. 1211 Nineteenth Street Northwest. They have been spending the winters at the Hotel Gordon for some years, but they have taken a house for this session. Their little girl is at school, but Thomas S. Jr. has not yet returned.

Senator Martin and his secretaries spend the greater part of every day at the Senator's office in the Malby Building. His correspondence is very heavy, and requires a great deal of his time, and he has a brother, Mr. Leslie H. Martin and his secretary, Mr. H. Kilmartin.

ARTHUR R. MAYO WEDS MISS K. MAYO WILSON

Pretty Ceremony is the Second to Take Place in St. Thomas Church, New York.

(Special to The Times-Dispatch.)
NEW YORK, November 22.—The second wedding to be celebrated in the temporary St. Thomas Church, that of Miss Katherine Mayo Wilson, daughter of Mrs. S. Wilson, to Mr. Arthur Randolph Mayo, of Richmond, Va., took place this afternoon. There were many guests at the ceremony. A reception for the bride and her friends followed at the home of the bride's mother, in West Forty-fifth Street. Roses and chrysanthemums were used for the church decorations. The bride was attended only by a maid of honor, Miss Laura Jane Buckner, of Philadelphia, who wore a gown of white mouseline de soie over pink tulle and a hat of white with pink plumes.

The bride's gown was of white chiffon cloth and white satin, embroidered with silver. A wreath of orange blossoms held her veil of tulle, and she carried white orchids and lilies of the valley.

STATE FAIR BOARD WILL MEET TO-NIGHT

Suggested That Mr. Henry C. Stuart May Be Asked to Accept Chairmanship.

The recently elected board of management of the State Fair Association will hold what seems certain to be an exceedingly interesting meeting to-night at Murphy's Hotel. Probably the most interesting matter to come up will be the election of a chairman for the board.

Mr. Henry C. Stuart, of Russell county, a member of the State Corporation Commission, has been suggested for this position, and it is quite certain that he will be chosen if he can be prevailed upon to undertake the work. Other matters will be taken up, and it is expected that added progress will be made.

Members of the board of management are Messrs. George W. Stevens, W. J. Leake, A. B. Williams, Charles B. Cooke, J. O. Miller, M. C. Patterson, John C. Corley, Samuel Cohen, E. B. Snyder, John S. Elliott, W. L. Walters, John S. Har-

wood, L. Z. Morris, M. A. Chambers, A. J. Dufford, A. L. Adams, S. E. Bryan, John Murphy, S. D. Crenshaw, W. T. Dabney, H. Lee Lorraine, E. H. Lea and Joseph Wallerstein.

Fire in Indianapolis.

(By Associated Press.)
INDIANAPOLIS, IND., November 22.—Fire today caused damage to the stock of the Hudson Furniture Company amounting to \$75,000 and injured the two seven-story buildings on Washington Street, occupied by the company, to the extent of \$750,000. The Columbus National Bank, which occupied an adjoining building, was damaged by water. During the progress of the fire securities to the amount of \$400,000 were removed from the bank for safety.

V. P. I. ON PINS OVER THE GAME SATURDAY

They Look for Victory Over the Middies at Annapolis.

(Special to The Times-Dispatch.)
BLACKSBURG, VA., November 22.—In the rear of "Bill" Elliott's popular drug store, where a record of the Virginia Polytechnic Institute's victories and defeats is kept, hangs a card, upon which is recorded the predictions of a score or more of men on the game to be played Saturday against the navy team at Annapolis. Conspicuously among them appear Coach Miles' score and those of former Captain Willson, the giant tackle, and Manager Gibboney. Miles says 6 to 6, and no doubt makes the mental reservation, "in our favor." Willson says Virginia Polytechnic Institute 5, Navy 0, and Gibboney thinks the result will be 4 to 0 in favor of his invincibles. At any rate, the feeling of victory prevails, and everybody is hopeful.

The training this week will be fast, yet the chances of injury will be taken. The men are now in better shape than they have been in any time this season, and with an unbroken line of victories are determined to add another after the midshipmen are played. The game is looked upon as the most important of the season, and the navy is beyond doubt the strongest team the home boys will have to encounter this year. Having gone down last year to 11 to 0, the most severe defeat received during the season, it is confidently hoped by all sympathizers that the former game will be neutralized by a turn of tables.

Between the army and the Universities of Virginia and North Carolina, it is believed the men will make a special effort to show the sailor boys that a few landmen can play foot-ball, too. The navy's record, on the other hand, is quite an enviable one, and no easy time is anticipated in winning from them.

The backs are in pink of condition. Carpenter's presence behind the line has a magic effect; in fact, Carpenter himself is the real embodiment of magic. Harris, at quarter back, is showing wonderful ability. His great forte is his power to start later, and to handle the ball with quickness and accuracy.

Nutter, who plays alongside of Carpenter, is no less a man for his experience than Carpenter himself. Those who have studied the two men say Nutter plays a better game as a second year man than Carpenter.

At full back Hanney will show the navy boys a thing in genuine foot-ball playing. Hanney is fast and reliable. Having already made all Southern full back, he has a reputation behind him which is the envy of the Southland, and Hanney is just the man to maintain that reputation. In his line of play he is classed, and with good line play the Virginia boys, the acknowledged champions of the South, will return to their native mountains to a joyful tune of victory.

KILLED FATHER OF HIS DAUGHTER'S HUSBAND

Angry Because Daughter Eloped, Will Cline Kills Father of Son-in-Law.

(By Associated Press.)
ANNISTON, ALA., November 22.—J. E. Phillips, a well known farmer, was shot to-day and instantly killed near Hallway Creek bridge, a few miles west of Anniston, by Will Cline, another farmer. The son of Phillips witnessed the shooting. Cline made his escape. Phillips' son ran away with the daughter of Cline and they were married here this morning. It is understood that this was the cause of the trouble.

Facile Princes.

"It's the leading society paper in the town."

"Oh, distinctly! It gets much the highest rates for leaving things out."

Life a Burden

There are times when life seems a burden—when you are tired, worn-out, have dull pains in the head and a continual feeling of uneasiness. You have no appetite, and your digestion is poor; your sleep broken, and you get no rest.

Little annoyances seem great mountains of trouble, and you are blue, melancholy and given over to gloomy forebodings.

This means low vitality—exhausted brain nerves. For this condition Dr. Miles' Restorative Nervine is a specific; it is a food for the nerves. It builds up the nervous system, and restores lost energy. Try it to-day and see if your sleep is not sound and refreshing, and the morrow brighter and more hopeful.

"I am glad to announce that I have recovered my health, as far as my advanced age will permit, after 83 years' illness. My nerves were very weak and my mind was very much impaired. When I commenced taking Dr. Miles' Restorative Nervine, I was completely restored. My nerves are now strong and my mind is clear. I am now able to do all the work of my life, and I feel as well as I ever did."

MRS. E. C. BAYLOR, Waterloo, Ind.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that it will do for you what it has done for me. It will refund your money.

Miles Medical Co., Elkhart, Ind.

Christmas Novelties in Ladies' Neckwear.

There is an irresistible attractiveness about and all through this big gathering of neck fixings that every tasteful woman will be glad to enjoy. Judged by our previous best efforts, we feel that few will be able to resist its charm. In fact, its very immensity means satisfaction and its very marked newness adds doubly to its desirability.

Practically everything for the neck, large or small, black, white and colors; stocks, ties, collars, bands, chimmesties, stoles, in laces, embroideries, silks, chiffons, nets and mouselines. The most modern procurable in every instance.

Prices from 10c to \$6.50 each.

See especially the dashing automobile scarfs, mouseline and crepe de chimes. Some daintily figured; all refined and effective.

Fourquaren, Temple & Co.

HURLEY WON'T PLAY IN HARVARD-YALE GAME

Foot-Ball Captain Again Strains Tendon in a Leg—Wendell Takes His Place.

(By Associated Press.)
CAMBRIDGE, MASS., November 22.—Captain Daniel J. Hurley, of the Harvard football eleven, will not play in the game with Yale on Saturday owing to injuries. Captain Hurley at the outset of the season strained a tendon in his leg, from which he partially recovered in time to play in the games with the Carlisle Indians, Pennsylvania and Dartmouth. In the last game, however, he again strained the same tendon, besides receiving a severe blow on the head.

Coach Reid announced that Wendell would be in Hurley's place at right half back, but that the matter of a field captain would be left until the day of the game.

WARSHIPS APPROACH; CASTRO MAY FLINCH

Recent Dispatches Indicate That Venezuelan President is in Responsive Mood.

(By Associated Press.)
PARIS, November 22.—Inquiry at the foreign office to-day brought out the statement that the report that France accedes to President Castro's request to indicate what portions of the Venezuelan note to M. Talmey, the French charge d'affaires, are offensive, is incorrect. The officials say that the President has heretofore been completely informed regarding the offensive features of the note and therefore the report that France will give further explanations is characterized as a bluff intended to delay and confuse the situation.

Castro Weakening.

(By Associated Press.)
WASHINGTON, November 22.—With the French warships at Martinique, a day's cruise from Venezuelan waters, President Castro has begun to show signs of a possible intention to modify his attitude toward the French government so far as diplomatic relations between the two countries is concerned. Secretary Root is not yet in a position to make a formal announcement on the subject but the tenor of the dispatch received thus far from Mr. Russell, the American Minister at Caracas, is that President Castro seems now inclined to be responsive.

KILL POLICY HOLDERS; 3 AMERICANS TO HANG

Men Masquerading As Life Insurance Agents Convicted of Murdering Two Persons.

(By Associated Press.)
EL PASO, TEX., November 22.—In Chihuahua last evening Judge Rios sentenced C. T. Richardson, C. B. Harle and Wm. Mason, Americans, to hang for the murder of two men in Chihuahua for life insurance money. Richardson was an insurance agent, Harle was a physician, and Mason was a physician. They were charged that they conspired to kill the two men, who they named Mitchell and who is said to be a half-brother of N. J. Harle, who married Mason's sister. The case has been in the Mexican court three years. Harle, formerly was an El Paso physician.

COAL OPERATORS TO COMBAT UNIONS

Organization Will Attempt to Put An End to the "Sympathetic Strike."

(By Associated Press.)
CHICAGO, November 22.—Bituminous coal operators from Illinois, Iowa, Indiana, Ohio, Missouri, Arkansas, Kansas, Michigan and Indian Territory met here to-day and formed a national organization which will combat labor unions in effort to put an end to the "sympathetic strike." W. C. Percy, of Kansas, was chosen temporary chairman and C. L. Serages, of Springfield, Ill., was made secretary. There were 22 delegates in the main.

Pennsylvania, West Virginia and Kentucky were not represented by delegates to-day and formed a national organization which will combat labor unions in effort to put an end to the "sympathetic strike." W. C. Percy, of Kansas, was chosen temporary chairman and C. L. Serages, of Springfield, Ill., was made secretary. There were 22 delegates in the main.
